

## **Status of NIST Special Publication 800-26, Security Self-Assessment Guide for Information Technology Systems**

NIST SP 800-26 is superseded by NIST SP 800-53 (Revision 3 is current version) and the NIST SP 800 53A (A-1 is current version).

Agencies are required to use FIPS 200/NIST Special Publication 800-53 for the specification of security controls and NIST Special Publication 800-53A for the assessment of security control effectiveness.

For the latest versions of relevant FIPS and NIST Special Publications, see:

(FIPS) <http://csrc.nist.gov/publications/PubsFIPS.html>

(Special Publications) <http://csrc.nist.gov/publications/PubsSPs.html>
